February, 2009

IDEC has now released a new 5.7" Touch Screen in HG series part number HG2G. This series offers a HMI with Ethernet interface in either a Monochrome LCD or a Color LCD with a light gray bezel. Dark Gray or Silver is available on INDENT. We will also stock a colour unit without Ethernet.

The new product features

- Super bright LCD in either
 - ✓ 500cd/m² High contrast Monochrome STN LCD or
 - ✓ 350cd/m² color STN LCD
- 15 Brightness levels
- 256 colors High Contrast LCD
- Analog touch panel enables flexible screen layout
- 2 models with Ethernet Interface
- Flush surface design
- O/I link function
- IP65 Degree of Protection
- UL/c-UL (Pending Feb 2009), CE marking
- Thin 35.9mm profile behind the panel

The following items are now available ex-stock

Display Screen	Ethernet Interface	Host Interface	Part Number
5.7" STN Monochrome LCD	Yes	RS-232C / RS-485 (422)	HG2G-SB22TF-W
5.7" CSTN Color LCD	Yes	RS-232C / RS-485 (422)	HG2G-SS22TF-W
5.7" CSTN Color LCD	No	RS-232C / RS-485 (422)	HG2G-SS22VF-W

The cable connecting to the PLC is **HG9Z-XC275** (5M in length).

The software for this range requires Version 3.41 which will be available as an up-grade from the IDEC Website.

IDEC will not be producing a CD for V3.41, but a Version 3.42 CD is available ex-stock for new users.

The part number is HG9Y-ZSS2W-V3.4+.

Please note that the Pass-Through function of the HG2G is not available in V3.41. It will however be available in the V3.42 up-grade which can be downloaded from the IDEC Website.

Stock is now available of the above 3 models.
